# Welcome

Welcome to the famous Argos catalogue. We have compiled this catalogue with you in mind, to offer you a great way of shopping for a huge range of quality products, at prices you will find hard to beat.

## How to shop

Shopping is simple

**1** Write the catalogue number and the quantity of the goods you require on a selection form (there are some included in this catalogue as well as in-store).

**2** Take the form to a service point.

**3** Whilst you are paying, your goods will be brought to the collection counter ready for you to collect.

Some of our larger items can also be ordered by telephone and delivered to your door, please see page 3 for details.

## Ways to pay

**1** You can pay for your purchase with cash or any one of the credit or debit cards shown. You can also pay by cheque and, if you have a valid cheque card, we will give you immediate clearance on cheques up to £500 (subject to status, you may need additional proof of identification).

**You can also pay by redeeming your Premier Points, see page 4.**

Overseas visitors may qualify for tax free shopping, saving at least 14% of the cost of your purchase. Please ask in-store for further details.

## Up to £1000 Instant Credit\*

Please ask in-store for details.

\*Subject to status. Available to most adults. Argos is a licensed credit broker.

## Argos Personal Account

There's now more than ever to choose from at Argos. With our Personal Account you can afford what you want now and then spread your payments over time.

**Spread the cost with an Argos Personal Account.**

Please ask in-store for details.

APR 32.9% (subject to variation).

† When payment is made by Direct Debit. A written quotation is available on request.

# We can deliver

## Argos

### DIRECT

#### Free home delivery service

For your convenience, items which are too large or heavy to stock in our stores, will be delivered directly to your home free of charge, anywhere in Great Britain (including Northern Ireland). Look for this symbol in the catalogue.

Delivery normally within 14 days, unless otherwise indicated in the description of the items or at time of ordering.

Order by telephone, using our Argos Direct FREE Linkline number 0800 555889.

You can call 24 hours a day, 7 days a week, giving your name, address, telephone number and credit card details, along with the catalogue number and description of the item you wish to purchase.

As well as being able to order any Argos Direct item by telephone, you can also order at any Argos store.

All Argos stores have examples of materials used on these products, so now you can ensure that the item you order is exactly what you want.

Please note: The 0800 Linkline number can only be used for placing orders for items marked with the red lorry symbol.

You will be given an alternative number when you order an item for any other queries.

#### Superstore delivery service

Delivery to your door for a small charge, within a 20-mile radius of a Superstore.

In addition, if you live within 20 miles of an Argos Superstore, you can order any items and have them delivered to your door for a small charge\*.

You can order by telephone during normal working hours - just quoting your name, address, credit card number and item details and we'll take care of the rest. (See the back page of the catalogue for a list of Argos Superstores and telephone numbers.) Or, you can order in-store at your nearest Superstore.  
\*Excluding items delivered FREE by our Argos Direct Service.

Free delivery and installation on large TV's and VCR's.

As an extension to our Superstore Delivery Service, we are also offering FREE DELIVERY AND INSTALLATION on all large screen televisions (20 inches and over) and VCR's, from any Argos Superstore.

Installation is to an existing electrical socket and adjacent aerial point. This offer applies within a 20 mile radius of any Superstore.

You can order at your nearest Superstore, or by telephone - as for our Superstore Delivery Service.

## Flowers by post

For that special occasion or just  
to say thank you, Argos and  
Flying Flowers takes care of it  
(see page 269 for further details).

For Mother's Day orders, please order by 10th  
March 1992; for Easter orders please order by  
3rd April 1992. For all other orders please allow  
7 days for delivery from receipt of order.  
Offer applies to UK mainland only.

# Collect & save

Save £££'s at Argos  
with Premier Points.

### EXAMPLES OF POINT REDEMPTION VALUES

|               |       |
|---------------|-------|
| FULL CARD =   | £5.00 |
| 2000 POINTS = | £4.00 |
| 1500 POINTS = | £3.00 |
| 1000 POINTS = | £2.00 |
| 500 POINTS =  | £1.00 |

Premier Points Collecting Cards  
are issued nationwide through  
our network of Mobil service stations.

Each time you buy petrol at  
diesel fuel, Points are  
accumulated on your personal  
electronic Collecting Card.

Points may be redeemed  
through any Argos store at any  
time - there is no need to wait until  
you have a full card. Simply present  
your Collecting Card(s) when making a  
purchase of one or more items from  
the Argos catalogue\*. You can add to  
your Points value with any other  
method of payment accepted at Argos  
stores.

For full terms and conditions pick up a  
leaflet at any Argos store or  
participating Mobil service station.

\*Excludes Flying Flowers, film  
processing, and any other mail order  
services.

## Argos gift vouchers

|     |                   |
|-----|-------------------|
| £1  | Cat. No. 888/0106 |
| £5  | Cat. No. 888/0507 |
| £10 | Cat. No. 888/1001 |
| £20 | Cat. No. 888/2000 |

If you want to take care of a Birthday,  
Anniversary or any other special  
occasion, an Argos Gift Voucher could  
be the answer.

Vouchers are also ideal for incentive  
and promotional programmes (see  
page 368).

Please note that, unfortunately, we  
cannot exchange Gift Vouchers for  
cash.

## Extended guarantees

To reinforce the Argos policy of  
selling high quality products,  
we also offer 3 and 5 year Extended  
Guarantees on a range of electrical and  
household items from microwaves to  
televisions and audio systems to  
vacuum cleaners and cameras.

For a modest single payment you  
can insure yourself against  
possible repair costs after the  
manufacturer's guarantee has expired,  
and know that expert help is always  
available.

So when choosing your purchase,  
why not protect yourself for the  
future by taking out an Argos  
Extended Guarantee.

We are also offering **FREE FIRST  
YEAR ACCIDENTAL DAMAGE  
COVER** on a range of electrical items.

Pick up a leaflet in-store for details.

The above guarantees do not affect  
your statutory rights.

# Committed to quality & safety

We want you, our customer, to have total confidence that every item you purchase from Argos is **SAFE, RELIABLE** and of the highest **QUALITY**.

We have therefore developed a large Quality Control team, fully dedicated to fulfilling such requirements, and have many products tested at independent test laboratories. All our goods, especially nursery and toy products, are subject to strict safety regulations and we take every care to ensure that all our products are safe.

The lion mark is a symbol of toy safety and all Argos toys are tested for compliance with exactly the same approved safety standard.

The "CE" mark, which appears on all Argos toys, is part of a campaign by the EEC to improve safety standards across Europe.

All our upholstered furniture conforms to match and cigarette ignition tests.

**Please Note:** Some of the goods which are shown in the catalogue may vary slightly if a supplier has changed or altered their specifications after the catalogue has been printed. If this should happen, we will try to help by offering you alternative goods of a similar specification and value to your original choice.

Under exceptional circumstances, we may have to make adjustments to our prices stated in the catalogue (which include VAT of 17%).

Please check the in-store catalogues before ordering.

All items are subject to availability.

The following guarantees do not affect your statutory rights.

## The Argos promise

If you change your mind and decide that a product you have bought does not meet your exact requirements we offer you the opportunity of returning it within 16 days of purchase, for a full refund or exchange.

We simply ask that it is returned in its original and unspoilt condition, with its original wrapping and your receipt. Please note this promise does not apply to cuttings for pierced ears, food products, camcorders, pre-recorded music and videos or fresh flowers.

## After sales care

Making sure that you are happy with your purchases, both when you buy them, and when you have taken them home, is very important to us.

If a product develops a fault, simply return it within 30 days of purchase and we will offer you an exchange or a full refund.

If a fault develops and the product is returned to a store more than 30 days after purchase but within 12 months, we will provide a free-of-charge repair facility, normally within 16 days.

Any product which develops a fault and has a manufacturer's guarantee beyond 12 months will be repaired free of charge for the duration of that guarantee.

And don't forget that we can arrange to have many electrical appliances serviced in your home.

Argos supports the guidelines for guarantees set by the Retail Consortium.

# A guide to help you keep fit

## Stay in shape at Argos

Our range of equipment, which is one of the best in the High Street, will enable you to exercise when it suits you, and in your own home, so that you can fit your exercise into your own lifestyle. Whether you're looking for light exercise or for something more 'serious', at Argos, we know how to take care of it.

We have equipment to develop strength and stamina for men and women of all ages for beginners and for experts.

### Strength Training

There is a variety of keep fit equipment available at Argos which primarily helps to build up your strength.

**Weights and Benches** are the simplest way to increase your strength. With weights you can test either a barbell or dumbbell bar depending on the type of exercise you want to do. If you use a bench in conjunction with a set of weights it will allow you to develop your own training programme.

**Multi-gyms** are the most comprehensive fitness and body building machines for developing your muscles. They are fully adjustable so that you can progressively increase and decrease the weight and resistance on them. Our multi-gyms will suit everyone, whatever your age, sex or level of ability.

### Stamina Building

If you are looking to build up your stamina through exercise then have a look at our range of Exercise Bikes and Rowing Machines.

**Exercise Bikes** help to build up your aerobic capacity and are particularly good at helping to tone up the muscles in your buttocks, legs, thighs and legs.

The latest dual action cycles have adjustable pivoting handlebars and seats enable you to pedal and row exercising the upper and lower body at the same time.

**Rowing Machines** are the single best machines for all round exercise by strengthening your legs and exercising your upper body.

**Treadmills** are similar to jogging and walking and are considered as one of the most intensive work-out machines.

Now we've given you some key tips to help fit equipment have a look through the catalogue to see our full range and let Argos take care of it.

This item will be delivered to your home. It is not available for collection from our stores. Delivery will normally be made within 14 days. You can order this item at most stores or by phone. See page 3 for details or ask at any store.

1. D.P. "CHALLENGER" 50KG VHSI BARBELL/SET. SET 5 bar 4 end barbells, 4 x 5kg, 4 x 10kg, 4 x 20kg, 4 x 25kg, 4 x 30kg and 4 x 35kg. 2 x 10kg dumbbell bars and collars. With instructions. Per set weight 50kg net 101

Cat. No. 3010101 £29.99

2. D.P. "CHALLENGER" 16.5KG REVERSING DUMBBELL SET. Complete 2 x 16.5kg dumbbell bars with 2.5kg, 5kg, 10kg, 15kg, 20kg, 25kg, 30kg, 35kg, 40kg, 45kg, 50kg, 55kg, 60kg, 65kg, 70kg, 75kg, 80kg, 85kg, 90kg, 95kg, 100kg, 105kg, 110kg, 115kg, 120kg, 125kg, 130kg, 135kg, 140kg, 145kg, 150kg, 155kg, 160kg, 165kg, 170kg, 175kg, 180kg, 185kg, 190kg, 195kg, 200kg, 205kg, 210kg, 215kg, 220kg, 225kg, 230kg, 235kg, 240kg, 245kg, 250kg, 255kg, 260kg, 265kg, 270kg, 275kg, 280kg, 285kg, 290kg, 295kg, 300kg, 305kg, 310kg, 315kg, 320kg, 325kg, 330kg, 335kg, 340kg, 345kg, 350kg, 355kg, 360kg, 365kg, 370kg, 375kg, 380kg, 385kg, 390kg, 395kg, 400kg, 405kg, Superbuy products have been  
specifically selected to attract  
offer our customers a reduction  
in price from our previous  
catalogues, or to indicate  
outstanding new lines.

Our suppliers adopt a policy of  
continuous improvement. Hence  
there may be, during the life of  
the catalogue, minor variations  
in models, specifications and  
prices.

Watches that are designated  
"water resistant" have been tested to  
30 meters depth under  
pressure unless otherwise stated.  
These watches are suitable for  
swimming whilst wearing.  
Watches that are designated  
"splash proof" are suitable for  
splashing whilst water is being  
splashed but NOT under any  
pressure like swimming and  
dive diving.

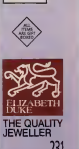

All quartz watches are  
dependent on batteries for their  
power source.

Watches that are designated with **water proof** are suitable for wearing while water is being splashed but not under any pressure or submerging and swimming.

Watches that are designated with **water resistant** have been tested to 30 meters (300 feet) water pressure unless otherwise noted. These watches are suitable for wearing while swimming.

All other watches are designated as **water resistant** for their power source. Our suppliers deliver a history of continuous improvement. Since there may be during the life of the watches, their resistance to moisture, specifications and details.

For an explanation of **waterproof** see page 21A. Some of the watches on this page may need professional estimation. This service is offered free of charge. Ask us for details.

## Win a trip for two to a European Grand Prix!

A VIP weekend away to see a European Grand Prix during 1992 will be won every month for 6 months. Each winner plus their partner will be the guests of Braun for a whole weekend at one of the Grand Prix during 1992. The trip includes flights, accommodation and sight-seeing.

Full details of the competition will be supplied when you purchase from any Braun Shaver model shown on this page.

Competition closes 25th July 1992.

Entries must be received by 23rd August 1991.

Please ask for a leaflet in-store for details.

# A guide to choosing your TV and audio equipment

## Televisions

If you are looking for a portable or large-screen television, Argos has a wide range for you to choose from with a variety of features. The key features are explained below to help you to make the right choice to suit your needs.

### FRT

This stands for "flatter square inch", which gives you improved definition, a wider viewing angle and less light reflection.

### Teletext/Fastext

This gives you up-to-date information on a wide range of subjects such as travel, news, sports and television programming. Teletext also gives sub-titles on selected television programmes.

Fastext is simply an updated system to give you quicker access to your chosen page of information.

### SMART Insect

SMART Insect can be used to connect your television to your VCR, audio system or satellite receiver dish.

### Sleep & Wake-up Timers

Particularly useful if you want to watch television in the bedroom, you can programme the timer to switch the television on/off automatically after you have fallen asleep. A wake-up timer also acts as an alarm clock.

## Video Recorders

The VCR unit is programmed by using the remote control handset. Some models have either an LCD display on the handset, or an on-screen display to aid programming. You can record one programme over if you are watching another on a different channel. The VCR can also be programmed to record a number of events over a period of weeks. A twin speed/stop play facility allows the VCR to record and then playback at half the normal operating tape speed. This effectively doubles the length of your tape, giving it hours of recording on a 6-hour tape, however the quality of the recording may not be quite as good as it is when recorded at normal speed.

Playback facilities include fast forward and picture search to help you to find the programme you want to watch, and freeze frame for those special moments.

### Argos Extended Guarantee

To support our commitment to quality, Argos offers extended 3- and 5-year guarantees on televisions, VCR's and most of our audio range including radio/cassette players, hi-fi systems, personal CDS and our radio/cassettos. For a small initial payment, you can insure yourself against future repair costs for your television and audio equipment.

We are also giving FREE first-year accidental damage cover on most TV and audio equipment.

Pick up a leaflet or ask in-store for details.

The above guarantees do not affect your statutory rights.

### Argos Personal Account

Spread the cost of your television and audio equipment with an Argos Personal Account. You can buy now and spread the payments to suit your budget.

See page 2 for details.

For queries about your equipment, ring the following numbers during office hours:  
ALBA 061-591 7151  
GOODMANS 0795 448131

TOSHIBA 0276 491445  
RUSH 061-592 7151

# Audio Equipment

## Personal Stereo

Agate offers a wide range of Personal Stereo, both cassette players and radio/cassette players for use inside and outside the home.

An anti-rattle device on some models is useful in eliminating playback distortion if you want to use the unit whilst on the move.

Some also have **Bass Enhancement** to give extra depth to the music.

## Personal CD Players

All of our Personal CD players are supplied with either in-the-car or lightweight headphones for your personal listening pleasure, but can also be used with your home audio system or active speakers. Additional features on some models may include a built-in radio, and rechargeable batteries.

A special contacting pack also allows some models to be used with your in-car radio/cassette.

Please note that Personal CD players are not suitable for active situations.

## Mini, Mini and Micro Systems

Mini systems incorporate speakers, a tuner, amplifier, cassette deck and record player all in one. Some also have a CD unit and a remote control. Mini and micro systems give the same high-quality sound as mini-systems but are smaller and more compact.

## In-Car Entertainment

We sell a range of car stereos, from simple audio cassettes to CD players. Many of the functions on in-car stereos are similar to those on other sophisticated recorders. Additional features include:

**Fader** - on 4-speaker systems this allows you to adjust the balance of sound between the front and back speakers.

**Auto seek tuning** - this is ideal for changing stations whilst driving. The radio automatically seeks out the strongest radio signal for you, so that you can concentrate on your driving.

**Radio Data Systems (RDS)** - this is designed to make road travel safer and more convenient. It displays the station name and main title your chosen station uses when travelling through different reception areas. Where traffic information is broadcast, this will automatically interrupt your listening with gravel bulletins.

**Extractable units** can simply be slotted into place when in use and then easily removed when you leave your car.

## Fitting Service

When you have chosen your car audio system,

let Agate and Lucas take care of installing it for you. Operated by Lucas, our fitting service covers radio/cassettes, CD's and speakers. Please ask in-store for full details.

# Audio Features Guide

The advances in audio technology mean that many sophisticated features are available on both personal and portable equipment, as well as our mid and mini systems.

## Digital Radio Tuners

**Phase Lock Loop (PLL)** Digital radio tuners seek out radio stations by searching the whole radio waveband automatically for the most strongest signal. They also allow you to move up and down the wavebands to seek a station manually.

## Pre-Set Stations

Some tuners enable you to pre-select your favourite stations and record them in a memory. You can then recall them at a touch of a button.

## Dolby 'B' & 'C'

Dolby is a noise reduction facility that reduces the hiss when tapes are played, especially on "quiet" music. Dolby 'C' is the enhanced version of Dolby 'B', giving even clearer sound reproduction.

## Continuous Play

Available with twin tape decks, this allows you extended playing time. The second tape automatically takes over when tape one has finished.

## Auto Reverse

When one side of the tape has finished, the cassette plays automatically plays the other side, giving continuous play with just one tap.

## High Speed Dubbing

Available only with twin tape decks, this facility allows faster tape copying usually at twice normal speed.

## Graphic Equalizers

A graphic equalizer allows you to "shape" accurately the tone of the music being played by increasing or reducing particular sounds.

The graphic equalizer has a number of bands. The greater the number of bands, the more precise the equalizer. Some systems also have a spectrum analyser which provides a visual display of the sound level in the form of "dancing lights" enabling you to make fine adjustments to sound and tone levels.

## Compact Discs

Compact discs, or CDs, provide the most accurate sound reproduction available.

On CD mini systems, a search button allows you to select which tracks you want to hear. A memory facility allows you to programme a sequence of tracks in any order. Multiplex CD players allow you to select tracks from up to 3 CDs at once.

## Turntables

Most mini systems have record turntables and belt-driven decks which ensure a constant rotational speed. Fully automatic decks place the stylus on the record for you, and return it after the record ends. Semi-automatic decks only return the stylus, you have to place it on the record yourself.

## Speakers

Speakers are an essential part of your stereo equipment - the better the speakers, the better the sound. Within each speaker is a series of either 2 or 3 cones (known as "2-way" and "3-way" speakers respectively). 2-way speakers usually give a better quality of sound. Active speakers for use with personal CDs and cassettes have their own power source to amplify the sound further.

## Music Output

The higher the number of watts the greater the capacity of the amplifier and the louder the sound will be. 2 x 20 watt music power means that there are 2 speakers with a maximum music output of 20 watt per speaker. Manufacturers generally express the potential maximum volume of an audio product in one of three terms. As a comparison:

1W RMS = 2W BPO = 4W EMPO

## Extended guarantees

When you're choosing your purchase, why not protect yourself for the future and take out an Argos Extended Guarantee? This gives you the extra reassurance of knowing you have safeguarded yourself against possible repair costs after the manufacturer's guarantee expires, and that expert help is always available.

**We are also offering free first year accidental damage cover on a range of electrical items**

See page 4 for further details, or pick up a leaflet in-store.

The above guarantees do not affect your statutory rights

## The Argos promise

If you change your mind and decide that a product you have bought does not meet your exact requirements we offer you the opportunity of returning it within 16 days of purchase, for a full refund or exchange. We simply ask that it is returned in its original and unspoilt condition, with its original wrapping and your receipt. Please note, this promise does not apply to earrings for pierced ears, food products, camcorders, pre-recorded music and videos or fresh flowers.

The above guarantee does not affect your statutory rights.

# A guide to business equipment

If you're building up your business, whether it be from an office or your home, you'll be looking for the latest types of office equipment. At Argus we now sell a wide range of business equipment from electronic organisers to the latest models of word processors and all at affordable prices.

## Electronic organisers/digital diaries

Whilst providing a similar function to a calculator, these also serve as miniature data management systems. They can hold information such as telephone numbers, addresses and daily schedules. The amount of information they can hold is dependent on the size of the memory, which can range from 8K to 256K. Some models also provide the facility for a much wider range of applications such as spread sheeting, word processing, and language translations. This facility can be via a range of slots to 512K cards which can also increase the memory size of your organiser. At Argus we offer a range of accessories and software for you to choose from through our Mail order service - see below for more details.

Making the right decision over how to equip your office, however, can be difficult with a list of technical information and features to understand. To help you with your choice we have explained within this guide some of the technical terms used in the catalogue.

## Typewriters

At Argus we have a range of typewriters from the most basic manual to a very comprehensive range of electronic typewriters. Below we have pulled out some key features on typewriters which will help to explain their functions to help you with your choice.

### Features Guide

**Corrective Memory** enables you to correct up to three lines of errors and so if an error is made you can simply retype and delete it.

**Text Memory** is a facility which allows you to store information/text of varying amounts. This can range from 5 pages of text with a 6K memory to 12 pages of text with a 24K memory capacity.

**LCD Display** (Liquid Crystal Display) allows you to review and edit text easily on screen before printing.

**Justification** allows you to produce documents with the right hand margin locked so that sentences are equally proportioned regardless of number of words hence giving a professional appearance.

**Spellcheck** facility alerts you to spelling mistakes and enables you to produce documents free from errors.

**Print Speed.** This is measured in CPS (Characters Per Second).

**Typing Pitch** The pitch designation represents the number of characters that can be typed per inch.

**Decimal Tabulation** automatically positions the carriage for alignment of numbers at the decimal point.

**Word Processor features** - some typewriters have the ability to perform basic word processor functions, such as block move/copy/delete.

## Word Processors

Word Processors offer all the benefits of an advanced typewriter but with the additional features of larger displays and a bigger memory capacity. The memory can also be expanded by the use of an external 31/2 floppy disk or data storage card.

### Features Guide

**Block Copy/Move/Delete** provides you with the ability to move, copy or delete a block of text allowing you to edit simply and quickly.

**Search and Replace** enables editing of a specific word or phrase throughout a piece of text in one single operation.

**Address/Mail Merge** allows you to merge a list of names and addresses with a letter enabling you to produce personalised correspondence easily.

We have a wide range of office equipment available through all our stores.

Remember Argus Superstores carry a wider range than our Traditional Stores and many items are on display. See the back of the catalogue for a list of our Superstores.

So whether you're looking to equip your office at your home, let Argus take care of it.

To cater for all your needs, we also offer a mail order service for spare parts and accessories on electronic typewriters. Simply call 061 927 7296 (24 hours) for credit card orders or alternatively pick up an order form from your Argus store. Your goods will be despatched free of charge.

**OFFICE EQUIPMENT AND TYPEWRITER ACCESSORIES**  
We operate a mail order service for dictation, daily wheels, software and accessories for your office equipment. For credit card orders, please ring 06 1 927 7094 (24 hour service) or alternatively pick up an order from your nearest show room. The charge is required on your invoice and your goods will be dispatched to you free of all carriage charges.

**ELECTRONIC TYPEWRITERS**

All electronic typewriters illustrated feature daily wheel print quality, correction facility, auto-carryover and auto-carriage return. They operate from 240V ac mains.

**REPAIR SERVICE**  
Should a fault develop and the product is returned to a showroom within 15 days of purchase, we will be glad to offer you an exchange or a full refund. If a fault develops and the product is returned to a showroom more than 15 days after purchase and within the manufacturer's guarantee period, we will provide a free-of-charge repair facility.

# A guide to choosing your telephone and answering machine

## Telephones

A phone offers a wide range of different functions. To help you to choose the right telephone for you, we have explained the features available.

### Cordless Phones

Cordless phones allow you to receive or make calls in a variety of places around the home and even in the garden. You can also page the handset (or wait) from the base unit. The base unit must be connected to a mains supply as well as an approved telephone socket. Features in the handset that recharge when the handset is replaced in the base unit. A battery back-up enables the telephone to be used during a power cut.

The quality of reception on your cordless phone is unlikely to be as clear as with a conventional unit, especially over long distances and between obstructions such as walls or doors.

Cordless phones are susceptible to interference from other cordless phones and radio transmissions, particularly when used from a distance. Cordless phones operate on a different channel—the channel number is marked on the box. If you experience interference, you will need to exchange the complete telephone set for one with a different channel number. Dual channel telephones have 2 channel options so you can switch the handset and base unit to the alternative channel.

To get the best result, always follow all of the manufacturer's instructions.

### Telephone Features

#### Intercoms

Many telephones allow you to store your frequently used or important numbers, and recall them at the touch of a button, or two.

#### Instant Message Service

This allows you to speak to other people in the room without being overheard by your telephone caller.

**On Hook Dialling/Hands Free Speech**  
"On Hook Dialling" enables you to dial without lifting the receiver. A speaker allows you to hear when the phone is answered, then you simply pick up the handset to speak.

"Hands Free Speech" is useful if you do not want, or are unable, to lift the telephone receiver—simply press a button and you can speak and listen with the receiver still in place.

#### Answer Only Option

The answer machine can play your message without asking the caller to leave a message. This is useful if you are away for several days.

**Two-Way Conversational Recording**  
This allows you to record a telephone conversation, and can be useful when listening to elections or instructions.

#### Search Phone Book

If your answering machine is switched on, it will stop and reset automatically when you interrupt an incoming call or another extension telephone.

**Remote Message Retrieval**  
You can even check the messages on your answering machine while you are out. Using a Time/Touch Tone<sup>®</sup> telephone (which produces a variety of tones as you dial) or a remote control

#### Ring Equivalent Number (REN)

The number of telephones you can connect to a line is determined by the REN of each telephone. The maximum total REN for a telephone line is 4.

#### PAGE

PAGE compatible telephones can be used with most PAGES exchanges or switchboard systems. Please see the manufacturer's instructions, or see the helpline for further details.

#### Mercury

You can now use the "Mercury" network from your home via a British Telecom line. For a small amount fee you will receive your own FBI code giving you access to, on average, cheaper long distance and international calls. A "Mercury" button will allow one-touch dialling into the Mercury system. Other "Mercury compatible" telephones enable programming of the separate line a normal memory. Please phone the Mercury helpline, 0800 424 194 for further details.

**BT Network Services**  
British Telecom digital exchanges will soon cover most of the country, giving clearer lines and better dialling. If you have a dual displaying (Time/Tone) or Touch Tone<sup>®</sup> telephone, you will also be able to use the new BT "Network Services".

Including call diversion, 3-way calling, and reminder calls. These additional services are available from BT for a quarterly rental charge. Contact your local BT office for further information.

\*Correct at time of going to press.  
\*Touch Tone is a BT registered Trade Mark.

All Answer telephones and answering machines need a plug-in socket. If you don't have this type of socket contact British Telecom and enquire about constraints.

## Answering machines

An answering machine will record your messages for you. Many also include a telephone handset to make normal outgoing calls. Both have a wide range of features to choose from.

To install your machine you need a 15 amp rated socket near to a plug-in telephone socket. You may also need a telephone socket (adapter) to connect the answering machine alongside your telephone. A combination of

telephone and answering machine will simply answer your existing telephone

### Answering Machine Features

**Call Monitor/Screening/Interception**  
This allows you to listen whilst the answering machine takes your call and choose whether to answer personally.

#### Message Facility

You can leave a message on your answering machine for someone else to access on their own.

device, you can activate your answering machine to play back any recorded messages. Some machines can also exercise other remote functions such as changing the outgoing message.

#### Digital Voice Prompt

A digital voice will guide you through the various operations, and give you information such as the number of messages received.

#### Call Count

A call count facility displays how many messages have been recorded for you, usually on an LCD panel or by a flashing green light.

#### Day/Tone Memory

This records the exact time and day of all incoming messages.

For any queries ring the appropriate helpline number during office hours.

# A guide to choosing your camera

**W**e have a wide selection of cameras, with a range of features to help you to get the best from your photography.

**Polaroid cameras** are special "instant" film so you can see your photos within minutes of taking a shot.

## Features Guide

**M**ost cameras are fitted with additional features to give greater flexibility when taking photographs.

### Flash

A **Built-in flash** works directly off the camera battery, and is usually effective for up to 1/8 feet.

An **Auto-Sensor Flash** works automatically when there is insufficient light. On some sophisticated cameras, a sensor flash can be turned off for atmospheric shots, or used as a "fill-in" flash on shaded subjects.

**Red-eye Reduction** flash is useful when photographing people in low light conditions. A pre-flash contracts the subject's pupils to avoid "red eyes".

### Motor Drive

**Motorized Load** will automatically advance the film to the first frame ready for use. After each shot, **Motorized Advance** automatically winds the film on to the next frame.

At the end of the film, **Motorized Rewind** will completely rewind the film ready to take out.

### Auto Focus/Focus Lock

Basic cameras have fixed focus, which does not vary depending on how far away the subject is.

Cameras with **auto focus** automatically focus on the subject in the centre of the viewfinder. "Focus lock" allows you to focus on your subject and then recompose the shot, still holding your subject in focus.

**SLRs** are lightweight, with a film which simply slots into the back. They have a viewfinder lens, and built-in flash for instant use. **SLR** cameras range from a basic lens, similar to SLRs, to sophisticated models with many additional features. They have a higher quality lens and use a 35mm film which gives better results.

### Auto Exposure

The shutter speed is automatically adjusted to give the right exposure for the existing light conditions.

On more sophisticated cameras a **backlight compensator** allows for bright backgrounds.

### Self Timer

This allows you to set the camera to take a photograph approximately seven seconds later, so that you can be in the shot as well. A **flex** self timer takes two pictures in succession, whilst a **special** model frame self timer allows you to take up to four consecutive shots.

### Zoom Lens

A **zoom lens** allows you to bring the subject closer and frame the shot as required without having to move. The bigger the zoom (measured in **effective**) the closer the image, and so the larger it will appear.

### Macro Facility

This allows you to take close-up shots, nearer than the usual minimum focal distance of the camera.

### Wide Angle

A wide angle lens allows you to fit more into a particular shot, such as landscapes or large group photographs.

### LCD Panels

On sophisticated cameras, these show the current function status, for example, the selected flash and focus mode, battery level, and how many pictures have been taken.

### EX Coupling

The camera will automatically adjust depending on the speed of film you use.

1. **POLAROID 110 SLR** CAMERA. Automatic flash and exposure system. Focus lens from 4 feet to infinity. View built-in close-up facility down to 1 foot, take-up. Load Polaroid 110 film. Price £129.95. Tel: 01753 560971. **£29.50**

2. **CONCORD 110 SLR** CAMERA. Auto built-in electronic flash, standard and telephoto. Load 2 x 110 film. Price £129.95. Tel: 01753 560971. **£5.95**

Batteries are not supplied unless otherwise stated.

3. **GOLDLINE 110 SLR** CAMERA. 110 film, auto exposure system, built-in electronic flash and film identification window. Complete with case and view film and batteries. Tel: 01753 560971. **£13.95**

4. **PANASONIC 110 SLR** CAMERA. 110 film, auto exposure system, built-in electronic flash. Complete with case, film, batteries, photo album and film for the packaging. Tel: 01753 560971. **£16.95**

5. **HAUNA 110 SLR** CAMERA. 110 film, auto exposure system, built-in electronic flash. Supplied with view strap, case, film and batteries. Tel: 01753 560971. **£17.95**

Watches that are designed with water-tight cases are dependent on the quality of the water pressure unless otherwise noted. These watches are suitable for swimming and diving. All quartz watches are dependent on batteries for their power source. Our suppliers accept a policy of continuous improvement. Hence there may be, during the life of the catalogue, minor variations in models, specifications and prices. Some of the watches on this page may need professional adjustment. The service is offered free of charge. Ask in-store for details.

NOTES FROM THE EDITOR  
OF 1971-1972

# Free delivery and installation

on all large-screen televisions (20 inch and over) and VCRs - see page 3 for details

## NICAM

Nicam (New Instantaneous Compounded Audio Multiple) sound is a revolutionary high quality stereo digital audio signal which is transmitted simultaneously with television pictures giving a similar sound quality to compact disc. Your television or video must incorporate a NICAM "board" which will pick up the signal through your existing TV signal.

By the middle of this year, Craigieley, Heathfield, Stock and Hill, Sudbury, Tacolneston and Waltham transmitters and relay stations will be available on NICAM with the remaining transmitters and their relay stations being added during 1993.

The TV sets featured on page 533 and items nos 4 and 5 on page 534 will receive the NICAM signal and offer you the benefits of greatly enhanced sound quality to your listening and viewing pleasure.

Television Sets

Televisor sets have always been described by the nominal size of the glass tube across its green diagonal. The figure shown in brackets on TV brand name is the actual viewable picture diagonal. No TV sets which are normally quoted in an advertisement in the names and for ease of comparison. All products on these pages come complete with stand. Inquiries helpline 1-800-441-1111.

MADE IN THE U.S.A. (P. 200-3-13)  
DIRECT EQUIPMENT OF SBT, 305

# A guide to business equipment

**Argus - The Complete Business Centre.** As well as our range of typewriters and word processors available through our normal Argus stores, we have a more extensive range of equipment sold exclusively through our Superstores.

## Computers

Computers are an excellent source of education as well as entertainment. Increasingly, schools are introducing computer studies to children at an early age.

**Basic Home Computers** comprise of a keyboard with an integral microprocessor and disk drive. These computers tend to be used as games machines.

**Personal Computers (PCs)** are more advanced, comprising a central processing unit with large disk drive, keyboard and monitor. The speed in which a Personal Computer processes information is determined by its level of megahertz (MHz). The higher the MHz, the faster the computer processing.

From computers to fax machines, we have everything you need to equip your office. As there can be quite technical products, we have provided some more information to help you with your choice.

### Memory

The size of a computer's memory is judged by the quantity of information it can hold. This is normally measured in megabytes (1 MB = 1 million bytes).

The **Random Access Memory (RAM)** is the working memory of the computer which is retained when it is in operation, information which is held in the RAM is lost when the computer is switched off, therefore this needs to be stored on hard or floppy disks depending on machine.

A **Hard Disk Drive** has a high capacity to store information. This is usually located within the body of the machine.

**Floppy Disks** enable you to store information externally from the computer on small 3½ inch or 5¼ inch disks. The size of which is dependent on the size of the disk drive. The amount of information that can be stored depends on the size and density of the diskette.

At Argus we sell a range of floppy disks which are suitable for use with all our computers and word processors - see pages 306 and 309 for more details.

## Fax machines

If you run a small business a fax machine is an ideal way to keep in touch. By simply plugging the fax machine into a new style phone socket and the mains, you can be connected to thousands of businesses throughout the country. Fax machines are now very compact, so can fit easily into your home or office. They are also very cheap to run costing the same rate as a telephone call.

Some machines contain an internal fax switch which will detect and then divert the call to either the fax or a telephone. If you wish to use your fax in conjunction with extension phones or as an answering machine, you will require a more highly featured stand alone fax unit.

### Features Guide

**Half Tone Reproduction** produces shades of grey and not just black and white, giving greater clarity for photographs or line drawings.

**SuperLine Mode** allows for a better reproduction with the facility for line print and detailed drawings.

**Auto Document Feed** lets you set up to 5 pages for automatic transmission or copying in sequence.

**Activity Report** provides a summary of information transmitted and received.

We sell fax paper through our Mail Order service, see below for more details.

We now have available through our Superstores a small selection of the latest models of fax machines which can help to solve all your communication problems quickly and easily. So if you want to stay in touch, let Argus take care of it.

## Printers

The 8004 common printer used now with word processors and computers is the Dot Matrix. Recently ink jet printers have become more popular. We have outlined the key differences to help you make the right choice.

**The Dot Matrix Printer**  
These printers are widely used. They work very slowly by creating an image on the

paper using a row of 9 dots. In the more expensive models, 24 pins. The pins strike rapidly on to a ribbon and through in the paper. A 24-pin printer is able to create a much smoother outline for letters and graphics since it uses more "dots per inch".

**Inkjettable Jet Printers**  
This works in a similar way to the Dot Matrix Printer, however the main difference is the use of an ink jet. An ink jet is achieved by a pump or, in the case of a Bubble Jet Printer, by heat creating steam pressure in the ink tube. This forces the ink on to the paper creating the image with Near Letter Quality (NLQ) print. One of the key benefits of these printers is the fact that they are very quiet when they print.

### Features Guide

• **dots (Dots Per Inch)**  
This refers to the density of the pins, the higher the DPI, the higher the density of the print.

• **Variable Print Speed**  
Most printers operate with variable print speeds, the faster the speed, however, the less definition is given to the print. This is measured in CPS (Characters Per Second).

• **Type into Typewriters**  
This is particularly useful if you like to change the presentation of your work. These can vary from basic and condensed typewriters to Roman and Swiss Serif typewriters.

• **Friction Feed Facility**  
Enables you to handle single pages through the printer whereas the pull

feed tractor facility handles a continuous supply of paper.

• **Bubble Memory**  
Enables you to store information being transmitted from the PC ready for printing.

Printer leads and accessories are available through our Mail Order service.

To cater for all your needs, we also offer a mail order service for spare parts and accessories on a range of office equipment. Simply call 061 927 7206 (7 days a week) for credit card orders or alternatively pick up an order form from your Argus store. Your goods will be dispatched free of charge.

5. **CARD OF 7500 DIGITAL BARRY** (SHIRT) Keyboard: 30mm, 30mm and 30mm. 1 line display. For use into business, personal and schedule time. Personal function for personal information. Clock, world time and alarm. Continuous memory. Last character correction. World memory. Last use area. Compact size. Set clock 4% x 1/2 inch approx. Battery supplied.

Get No. 6709519 **£25.50**

2. **CASIO'S 7500 DIGITAL BARRY** (SHIRT) Keyboard: 30mm, 30mm and 30mm. 1 line display. For use into business, personal and schedule time. Personal function for personal information. Clock, world time and alarm. Continuous memory. Last character correction. World memory. Last use area. Compact size. Set clock 4% x 1/2 inch approx. Battery supplied.

## A guide to choosing your camcorder

If you want more than just a photograph, a camcorder allows you to capture the complete action in sound and vision. Camcorders give high quality home video recordings and have a wide range of features to give you greater flexibility and improved photography. To help you to make the right choice, our guide below helps to explain the technical terms and features.

| Topic |
|-------|
|-------|

There are two camcorder formats using different types of tape.

There is a small cassette which goes up to 90 minutes recording, or 120 with long play facility.

Tapes are played back by plugging the camcorder directly into your TV or video recorder using the leads supplied. Recordings can be edited on to VHS tape via a video recorder.

**VHS-C** is a compact tape which can be played in your VHS video recorder, using the special adapter supplied with all of our VHS-C camcorders.

Tapes can also be played back by connecting the camcorder directly into a TV or video recorder 11-pin SCART socket.

If you do not have a video recorder or 21-pin socket TV, you will need to buy an RF lead and adaptor - available from Argos Mail Order Services (see page 312).

### Features Guide

**February 1999**

A power zoom gives a smooth zoom-in action for close-up shots. The greater the zoom, the greater the magnification.

**Felix Wenger, Kathi Fehren**

**This ensures that the subject stays in focus, no matter how close or far away you are.**

Intelligent Audio Inc.

This auto focus facility works through the lens to give clearer shots and a better colour balance.

**Abstract**

A macro facility allows clear and focused close-up recordings.

### Summary Statement

A variable shutter speed allows slower speeds in low light conditions, whilst a high-speed shutter gives clear shots of high-speed action.

### Large time-stepping

The lower the lux minimum illumination, the lower the light conditions in which the camcorder can still effectively record.

**Fluoride**

A fader allows you to fade smoothly in and out of different shots.

### Flying Eagle Brand

When rounding over an old recording this gives a cleaner transition from old to new machines.

### Topic Memory

You can superimpose titles or dates on  
 as many recordings.

### Acute Treatment

By entering your child's birth date, you can have an on-screen display of what age on famous recordings.

**Endothelial Cells** *Human umbilical vein*

You can view previous recordings through the recorder for editing or to find the correct position to resume recording.

[illegible]

This allows you to insert a new recording between existing scenes.

### Wilmshurst, Cawthra

Some camcorders have a remote control for use when playing your recordings through your TV or VCR. This allows you to play, pause, fast forward and rewind the tape in the camcorder.

### Extended Guarantee

Agnes 3- and 5-year Extended Guarantees are available on all our air conditioners. See page 6 or pick up a leaflet in-store for details.

**Telephone Helpline**

For any question about your customized plan, please ring the appropriate helpline during office hours.
